

14 FAM 220 GENERAL ACQUISITIONS

*(CT:LOG-16; 01-12-2006)
(Office of Origin: A/LM)*

14 FAM 221 GENERAL ACQUISITIONS ISSUES

14 FAM 221.1 Advance Acquisition Planning

(CT:LOG-14; 01-05-2006)

- a. Acquisition planning is described in Federal Acquisition Regulation (FAR) Part 7 and Department of State Acquisition Regulation (DOSAR) Part 607. Acquisition planning is critical to the Department's ability to produce an annual Forecast of Contract Opportunities, a publication produced by the Office of Small and Disadvantaged Business Utilization (A/SDBU). Acquisition planning should occur concurrently with budget planning.
- b. Each year, the Office of the Procurement Executive (A/OPE) issues a memorandum setting forth the internal procedures for acquisition planning and providing a planning format. The advance acquisition plans (AAPs) must be submitted to the appropriate contracting activity. Acquisition planning applies to all Department acquisitions with an estimated value exceeding the simplified acquisition threshold of \$100,000, with the exception of construction acquisitions abroad conducted by the Bureau of Overseas Buildings Operations.
- c. Acquisition planning must be initiated by a requirements office or post abroad as soon as a need is identified, preferably well in advance of the fiscal year in which the contract action is necessary. Acquisition requirements not identified in AAP submissions may be returned to a requirements office because adequate resources are not available to process the acquisitions in a timely, cost effective manner, in full compliance with law and regulation.
- d. In the event a projected requirement is identified after AAPs have been submitted, the requirements office or post abroad should submit advance information immediately using the appropriate

format. Inadequate planning must not be used to justify either sole-source or limited competition by reason of unusual or compelling urgency. It should be noted that FAR 6.302-2 requires that agencies request offers from as many potential sources as is practicable under the circumstances when attempting to use the “unusual and compelling urgency” exception to full and open competition.

14 FAM 221.2 Contract Review

(CT:LOG-1; 05-27-2005)

- a. Each fiscal year, the Office of the Procurement Executive (A/OPE) issues a call for acquisition plans (“Master Buy Plan”) via cable to posts abroad. A/OPE asks posts to provide a list of planned solicitations, contracts, and modifications for that fiscal year that will exceed the warrant level of the assigned contracting officer. A/OPE then selects those actions that it will review and provides the list to post. A/OPE grants authority for the contracting office to sign any planned actions that are not selected for review.
- b. Posts must notify A/OPE of any unplanned actions that exceed the contracting officer’s warrant level as they arise, so that A/OPE may decide whether a review is required. Posts failing to respond to the call for acquisition plans may be required to submit all acquisition actions above the contracting officer’s warrant level for A/OPE review and approval.
- c. Prior A/OPE review is not required when exercising priced options, unless specifically requested by A/OPE.

14 FAM 221.3 Year-End Spending

(CT:LOG-14; 01-05-2006)

- a. Acquisitions must be preceded by adequate planning and appropriate budget and fiscal management. Acquisitions that are made near the end of a fiscal year must represent a bona fide need for that fiscal year. Pursuant to Federal Acquisition Regulation (FAR) 6.301(c), contracting without full and open competition may not be justified on the basis of:
 - (1) Lack of advance planning by the requirements office; or
 - (2) Concerns related to the amount of funds available (e.g., funds will expire).
- b. To ensure that year-end acquisitions are procured efficiently:

- (1) Orders for supplies and services will be kept to the minimum needed to support essential, approved programs;
- (2) New contracts for future services will be made in accordance with established advance acquisition plans;
- (3) Requisitions, including telegraphic requisitions, must be received in A/LM/AQM in time to ensure processing before the end of the fiscal year. A/LM/AQM posts its deadlines on the A/LM Home Page on the Intranet. All purchase requests that are not included in approved AAPs or are submitted after the applicable deadline are subject to being returned to the requirements office or post without action; and
- (4) All purchase orders and delivery orders using annual appropriations must be delivered, mailed, or pouched by midnight local time on September 30. If electronic notification is provided via fax, email, or e-commerce, confirmation of receipt or successful transmission must be provided before October 1. Negotiated contracts must be signed by both the contractor and the contracting officer before October 1. Contracts awarded as a result of sealed bidding must be signed by the contracting officer prior to October 1.

14 FAM 221.4 Clearance Requirements

(CT:LOG-1; 05-27-2005)

Various Department of State offices must clear and approve certain equipment and services before a contracting officer may initiate an acquisition. The list of items and clearance offices is shown in 14 FAM Exhibit 221.4. It is the responsibility of the requirements office to obtain the appropriate clearances prior to submitting the acquisition request to the contracting activity.

14 FAM 221.5 Standardization Program

(CT:LOG-1; 05-27-2005)

- a. Department of State Acquisition Regulation (DOSAR) 606.370 establishes the Department's Standardization Program. While it is the Department's policy to promote full and open competition in all acquisition actions, there are some circumstances where only specified makes and models of equipment will satisfy the Department's needs and only one source is available.
- b. Requirements offices or posts that wish to standardize must

prepare a written justification for other than full and open competition. The justification must be approved by the contracting officer, the requirements office, the procuring activity competition advocate, and the Procurement Executive. Sample justifications for motor vehicles and household appliances standardizations are available on the Intranet.

- c. The Departmental Competition Advocate, located in the Office of the Procurement Executive (A/OPE), controls and disseminates information on current standardizations and expiration dates for posts for motor vehicles and household appliances.

14 FAM 221.6 Three Acquisition Methods

(CT:LOG-14; 01-05-2006)

- a. **Simplified acquisition:** Federal Acquisition Regulation (FAR) Part 13 and Department of State Acquisition Regulation (DOSAR) Part 613 describe simplified acquisition procedures. These procedures include the imprest fund (petty cash), the Government-wide purchase card, purchase orders, and blanket purchase agreements (BPAs). Simplified acquisition procedures may be used for the acquisition of supplies, services, and construction when the aggregate amount is \$100,000 or less. Acquisitions for commercial items may use simplified acquisition procedures for acquisitions up to \$5 million under the Special Test Program in FAR Subpart 13.5.
- b. **Sealed bidding:** Sealed-bidding procedures are described in FAR Part 14 and DOSAR Part 614. Sealed bidding employs competitive bids, public opening of bids, and contract award that is based on the lowest bid submitted by a responsive, responsible bidder.
- c. **Negotiation:** The procedures and policies for contracting by negotiation are described in FAR Part 15 and DOSAR Part 615. In a negotiated acquisition, offerors submit proposals that are evaluated by the U.S. Government, which may, when deemed appropriate, conduct negotiations/discussions and permit offerors an opportunity to revise their proposals before an award decision is made.

14 FAM 221.7 Performance-Based Statements of Work

(CT:LOG-14; 01-05-2006)

- a. Specifications are the heart of any acquisition. In most instances, commercial providers should be able to meet the specifications. Specifications should be written to provide for maximum

competition, and should not be restrictive.

- b. In recent years, there has been an emphasis to make contractors more accountable by requiring them to produce tangible results. This is particularly true for service contracts. Thus, performance-based service contracts are the standard when drafting statements of work for services. In accordance with Office of Management and Budget (OMB) guidance, forty (40) percent of eligible service contracts exceeding \$25,000 must be performance-based.
- c. Performance-based service contracts:
 - (1) Describe work in terms of results needed;
 - (2) Use measurable performance standards;
 - (3) Provide for price reductions when acceptable work is not performed; and
 - (4) Give contractors freedom to determine how to meet the U.S. Government's performance objectives.
- d. Requirements offices must arrange for training of employees who write statements of work for contracts. The Foreign Service Institute (FSI) offers a correspondence course on this subject, and many other courses are available commercially.
- e. Detailed information on performance-based service contracting is available on the Office of the Procurement Executive (A/OPE) (A/OPE) Internet Home Page or on the A/OPE Intranet Home Page.

14 FAM 221.8 Synopses of Proposed Contract Actions

(CT:LOG-14; 01-05-2006)

- a. Contracting officers are required to publicize proposed actions exceeding \$25,000 in the Government-wide point of entry (GPE) in accordance with Federal Acquisition Regulation (FAR) Part 5. Federal Business Opportunities has been designated as the GPE.
- b. In accordance with a Determination and Findings issued by the Assistant Secretary of State for Administration and implemented in Department of State Acquisition Regulation (DOSAR) 606.202-70, contracting officers at posts abroad are not required to publicize acquisitions in the GPE, unless the acquisition is for local guard services or, the acquisition is for any service, supply, or construction that exceeds \$5 million (see paragraph d in this section).

- c. Contracting officers at posts abroad are not required to prepare an individual determination and findings to document their decision to waive the GPE notice requirements.
- d. All solicitations for local guard contracts that exceed \$250,000 in the aggregate and any acquisition exceeding \$5 million must be advertised in the GPE.
- e. Nothing in this section prevents a contracting officer abroad from advertising in the GPE if he or she decides that such notice would be in the Department's best interests.
- f. The Office of the Procurement Executive (A/OPE) submits notices of proposed contract actions electronically to the GPE on behalf of posts, in accordance with DOSAR 605.207(a)(1).

14 FAM 221.9 Reporting Requirements – State/Federal Procurement Data System - Next Generation (S/FPDS-NG)

(CT:LOG-14; 01-05-2006)

- a. The Federal Procurement Data System—Next Generation (FPDS—NG) is a computer-based information collection system established by the Office of Management and Budget's Office of Federal Procurement Policy. Executive departments and agencies are responsible for collecting and reporting acquisition data to the General Services Administration's Federal Procurement Data Center (FPDC), in accordance with the Office of Federal Procurement Policy Act, as amended, and the Federal Acquisition Regulation (FAR) Subpart 4.6.
- b. The State/Federal Procurement Data System—Next Generation (S/FPDS—NG) is an automated data collection system designed to provide the Department's offices worldwide with an effective method for collecting and reporting acquisition data to the Federal Procurement Data System FPDC's FPDS—NG. The State/Federal Procurement Data System—Next Generation (S/FPDS—NG) is maintained by the Office of the Procurement Executive (A/OPE).
- c. All domestic and contracting activities abroad must submit quarterly acquisition data directly to GSA's FPDS—NG program via the Internet. Contracting activities abroad must submit procurement data using the State/Federal Procurement Data System-Next Generation (S/FPDS—NG) (<https://opeserver.induscorp.com/sfpdsng/login.jsp>) to A/OPE for subsequent transmittal to GSA's FPDS—NG:

- (1) **Domestic contracting activities:** Reports shall be submitted on an ongoing basis throughout the reporting quarter since FPDS—NG processes data in real time; and
 - (2) **Contracting activities abroad:** Reports shall be submitted no later than 15 calendar days following the last day of each fiscal year quarter being reported.
- d. Detailed information on the State/Federal Procurement—Next Generation (S/FPDS—NG) may be found on the A/OPE Intranet web site and the A/OPE Internet home page.

14 FAM 221.10 State First Policy for Acquisition

(CT:LOG-14; 01-05-2006)

- a. In accordance with Department of State Acquisition Regulation (DOSAR) 607.103-70, domestic bureaus and offices must first use the services of the Office of Acquisition Management (A/LM/AQM) or other appropriate Department of State contracting activity before transferring funds to another agency to conduct an acquisition. This policy applies across the board, regardless of the statutory or regulatory authority to transfer funds to other agencies for acquisition purposes. It includes transfers under the Economy Act, the Clinger-Cohen Act, and any other legal authority. It also includes funds deposited with another agency for subsequent use, where no immediate need has been identified.
- b. Domestic bureaus or offices may only transfer funds to another agency for acquisition services after obtaining a waiver of the State First policy from their acquisition office, normally the Office of Acquisition Management (A/LM/AQM). The request for waiver shall be in the form of a memorandum or email to the director of the appropriate acquisition office, or his or her designee. The request shall address the following:
 - (1) Identification of the agency proposed to provide acquisition services, including contact name, address, and telephone number;
 - (2) Description of the requirement and acquisition services to be provided by the other agency;
 - (3) Estimated total dollar value, including option years;
 - (4) Duration of requirement, including option years;
 - (5) Reason for using another agency for the acquisition; and

- (6) Amount of surcharge that would be applied by the proposed servicing agency.
- c. The acquisition office shall review each request on a case-by-case basis jointly with A/OPE and respond promptly to the requesting office or bureau. The response shall include the rationale for the decision either to do the work in house or to authorize use of another agency:
 - (1) If the acquisition office approves the request, that office shall instruct the requesting bureau or office to prepare an Interagency Agreement (IAA) in accordance with DOSAR 617.5. The requesting bureau or office shall obtain the necessary clearances and authorizations to make the IAA effective both in the Department and the other agency;
 - (2) If the acquisition office disapproves the request, that office shall instruct the requesting bureau or office to forward a procurement request to the appropriate contracting officer for action and shall work with the bureau or office to develop an acquisition plan.
- d. In reviewing a particular case, the acquisition office and A/OPE may determine that the sort of acquisition involved will not require future review and may grant a blanket waiver for future instances where the same item is involved, such as IAAs with the Department of Defense for ammunition.

14 FAM 221.11 Acquisition Requirements in Other Volumes of the FAM

(CT:LOG-14; 01-05-2006)

- a. Refer to 15 FAM, Overseas Buildings Operations, for acquiring, leasing, constructing, or renovating real property abroad.
- b. Refer to 12 FAM, Diplomatic Security, for contract security requirements as well as purchase and control of security equipment.
- c. Refer to 7 FAH-1, Consular Management Handbook, for consular supplies.
- d. Refer to 5 FAM (Information Management) Chapter 900, Information Technology (IT) Acquisition, and 5 FAM Chapter 1000, Information Technology (IT) Planning, for information technology.
- e. Refer to INL Procurement Policies and Procedures for International Narcotics and Law Enforcement Affairs (INL) acquisitions.

14 FAM 222 CONTRACT ADMINISTRATION

(CT:LOG-1; 05-27-2005)

- a. Contract administration involves ensuring that both the contractor and the U.S. Government fulfill their mutual obligations as set forth in the contract. Contract administration begins when the contract has been signed and ends with the administrative actions taken at contract closeout when performance has been completed and the contractor has received final payment.
- b. Contract administration includes monitoring the contractor's technical progress and performance, approving invoices for payment in accordance with contractual terms, reviewing and consenting to subcontracts, controlling U.S. Government property, and overseeing contract modifications and terminations.
- c. The contracting officer may designate one or more technically qualified personnel as authorized representative(s) to assist in the administration of contracts, pursuant to Department of State Regulation (DOSAR) 642.270. These individuals are:
 - (1) Contracting officer's representative (COR), who is the primary individual assigned to monitor and evaluate the contractor's performance; and
 - (2) Government technical monitor (GTM), who assists the COR in monitoring and evaluating the contractor's performance.
- d. The contracting officer is the only person who may modify the contract, or take action to enter into or change a contractual commitment on behalf of the U.S. Government.
- e. The COR and GTM may assist the contracting officer in ensuring that the contractor complies with all terms and conditions of the contract, including the delivery and quality conditions specified in the contract.
